We, in the volunteer agencies and centres, see ourselves as bridge-builders between the public, the state and the general economy. Our goal is an open and united civic society, where all people and organisations, irrespective of their political, cultural, religious or philosophical outlook, can work together creatively and responsibly.

Citizens, with their many and varied abilities, experiences and interests, should be encouraged and motivated to engage in social commitment.

WHAT IS IMPORTANT FOR

At the Munich volunteer agencies and centres, we take care that we have courteous and respectful working relationships with all our target groups. Therefore we exclude cooperation with any racist, anti-Semitic, sexist, LGBTIQ*-phobic or any other socially or democratically prejudiced partner-organisation or project.
